Summer Academy Semily 2022

In the middle of a picturesque town Semily, surrounded by a beautiful nature, the 30th Summer Academy for Steiner/Waldorf Early Childhood Education, organized by the Association of Waldorf Kindergartens of the Czech Republic, will take place in July. Teachers and parents from all over Europe are invited on this occasion. It is our greatest wish to create opportunities for intensive meetings and exchange of experience for participants from „East and West“. That happens through lectures, discussions and workshops (both didactic and artistic). The theme of every year's Summer Academy always touches on the current educational situation all over the world.
